

**December 30, 2022**

# **Covid-19 Report**

**Also available on [www.hvhdct.gov/blog/](http://www.hvhdct.gov/blog/)**

# Update from Lisa Morrissey, Director of Health

**Housatonic Valley Health District has received a limited supply of at-home COVID-19 test kits. Visit New Milford Town Hall, Oxford Town Hall, Southbury Town Hall, Washington Town Hall, or Woodbury Senior Center to pick up at-home COVID-19 test kits.**

The Federal Government has now made **four free self-test kits available per household** which can be ordered by visiting [www.covid.org/tests](http://www.covid.org/tests).

Connecticut Department of Public Health has partnered with four federal qualified health centers that offer no-cost COVID-19 testing and treatment including:

- Charter Oak Health Center Inc, 21 Grand St, Hartford
- Fair Haven Community Health Clinic, 374 Grand Ave, New Haven
- Family Centers Health Care, 111 Wilbur Peck Court, Greenwich
- Southwest Community Health Center, 1020 Fairfield Ave, Bridgeport

## Upcoming Community Vaccination Clinics:

- January 10th from 2:00 pm – 4:30 pm in Southbury (77 Main Street N)
- January 11th from 2:00 pm – 4:30 pm in New Milford (2 Pickett District Road)
- January 17th from 2:00 pm – 4:30 pm in Southbury (77 Main Street N)
- January 18th from 2:00 pm – 4:30 pm in New Milford (2 Pickett District Road)
- January 24th from 2:00 pm – 4:30 pm in Southbury (77 Main Street N)
- January 25th from 2:00 pm – 4:30 pm in New Milford (2 Pickett District Road)

NOTE: Both Flu and COVID-19 vaccinations will be available. **Flu appointments** are preferred but walk-ins are accepted. **Appointments are required for COVID-19 vaccines** and are available for ages 12+. Visit [www.hvhdct.gov](http://www.hvhdct.gov) to learn more and schedule an appointment.

**\*Appointments can be booked no more than two weeks in advance\***

## Upcoming Rapid PCR COVID-19 Testing Clinics:

- Mondays from 9:00 am – 11:00 am in New Milford
- Tuesdays from 9:00 am – 11:00 am in Southbury
- Wednesdays from 9:00 am – 11:00 am in New Milford
- Thursdays from 9:00 am – 11:00 am in Southbury

Visit [our clinical portal](#) to schedule an appointment.

**NOTE: Appointments can be booked no more than two weeks in advance.**

---

*We are happy to announce that HVHD is now reporting data for the Town of Sharon as part of a grant from the State of Connecticut Department of Public Health grant!*

# Housatonic Valley Health District: Trends & Analysis

**New Milford, Oxford, and Woodbury** saw an increase in positive case rates while **Southbury** saw a decrease. The table below shows HVHD (New Milford, Oxford, Southbury, Washington, and Woodbury) in comparison to the 6 surrounding towns in Connecticut.

| Town        | December 23 - December 29 |                              | December 9 - December 15 |                              |
|-------------|---------------------------|------------------------------|--------------------------|------------------------------|
|             | Case Rate                 | NAAT test percent positivity | Case Rate                | NAAT test percent positivity |
| Bridgewater | -                         | -                            | -                        | -                            |
| Brookfield  | 35.35                     | 7.61%                        | 53.02                    | 12.15%                       |
| Danbury     | 76.74                     | 15.4%                        | 77.92                    | 11.5%                        |
| New Milford | 111.91                    | 19.71%                       | 44.76                    | 8.48%                        |
| Newtown     | 64.53                     | 15.17%                       | 86.04                    | 12.44%                       |
| Oxford      | 90.53                     | 14.94%                       | 52.81                    | 10.19%                       |
| Roxbury     | -                         | -                            | -                        | -                            |
| Sharon      | -                         | -                            | -                        | -                            |
| Southbury   | 71.53                     | 10.56%                       | 102.19                   | 11.05%                       |
| Washington  | -                         | -                            | -                        | -                            |
| Woodbury    | 73.66                     | 17.14%                       | 63.14                    | 11.32%                       |

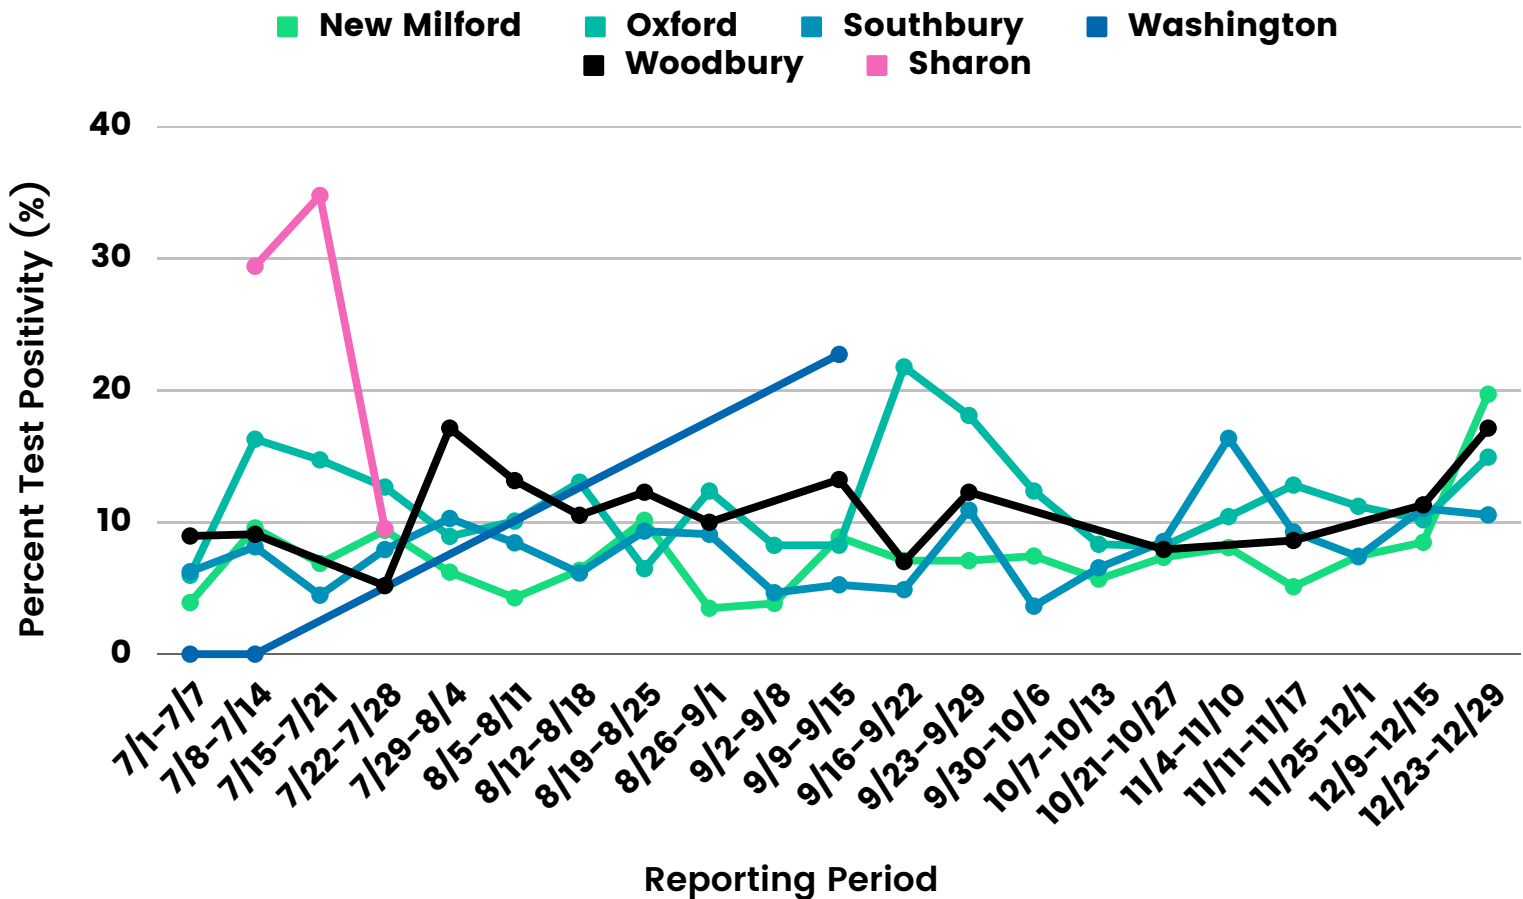

Analyzing cases per 100,000 residents helps track the incidence rate of COVID-19 in the community and allows for standard comparisons between communities.

\*Data is for New Milford, Oxford, Southbury, Washington, and Woodbury residents only. All data are preliminary and subject to change. More details from the State DPH can be found [here](#).

# Housatonic Valley Health District: Trends & Analysis

The chart below shows percent test positivity among New Milford, Oxford, Southbury, Washington, and Woodbury over an 13 reporting period.

Percent Test Positivity Among HVHD From 7/1/22 to Current Reporting Period

As of 6/30/22, CTDPH has changed how they report percent positivity. The 6/23-6/30 reporting period reflects a 7 day NAAT test percent positivity. Future reporting periods will also reflect this change.

**Analyzing cases per 100,000 residents helps track the incidence rate of COVID-19 in the community and allows for standard comparisons between communities.**

\*Data is for New Milford, Oxford, Southbury, Washington, and Woodbury residents only. All data are preliminary and subject to change. More details from the State DPH can be found [here](#).

# Housatonic Valley Health District Data: Trends & Analysis

The chart below shows New Milford, Oxford, Southbury, Washington, and Woodbury in comparison to the surrounding towns showing the percentage of residents who are fully vaccinated ages 5+. Each town plateaued among most age groups.

Fully Vaccinated Percentages between HVHD and the 6 Surrounding Towns

All data are preliminary and subject to change. CT DPH has capped the percent of population coverage metrics at 100%. These metrics could be greater than 100% for multiple reasons or potential data reporting errors.

\*Data is for New Milford, Oxford, Southbury, Washington and Woodbury residents only. All data are preliminary and subject to change. More details from the State DPH can be found [here](#).

# Housatonic Valley Health District Data: Trends & Analysis

The chart below shows New Milford, Oxford, Southbury, Washington, and Woodbury in comparison to the surrounding towns showing the percentage of residents who have received their additional dose among ages 5+.

Additional Vaccine 1 Percentages between HVHD and the 6 Surrounding Towns

**All data are preliminary and subject to change. CT DPH has capped the percent of population coverage metrics at 100%. These metrics could be greater than 100% for multiple reasons or potential data reporting errors.**

### Definitions:

- Primary series = 2 - 3 doses of Pfizer & Moderna; 1 dose of J&J
- Booster = additional dose
- Up to date = if you have completed a COVID-19 vaccine primary series and received the most recent booster dose recommended for you by CDC
- Fully vaccinated = 2 weeks after final dose in primary series
- Monovalent = only 1 antigen in a vaccine
- Bivalent = a vaccine that works by stimulating an immune response against 2 different antigens (i.e. omicron BA.4 and BA.5)
