

Housatonic Valley Health District Permit to Construct A Sewage Disposal System Application

Applicants must obtain plan approval prior to receiving a permit to construct. The permit to construct is not valid until signed by an authorized employee of the Housatonic Valley Health District. Only licensed septic installers may apply for the permit to construct and must apply in-person with proof of certification.

Upon completion of installation and before covering, the installer must contact the Health Department for a final inspection. The installer shall notify the Health Department at least 48 hours before the inspection. Failure to have an inspection will preclude issuance of a "Permit to Discharge."
